

Service to community

AS A token of its community consciousness and its involvement in the life of Bulawayo at all levels, the school is taking a leading part in the promotion of an anti-litter and anti-vandalism campaign being mounted by the municipality.

Teams of boys from the Sixth Form will be visiting schools throughout Bulawayo to give talks, distribute material and show films. In this way young people will be involving other young people in keeping this beautiful city of ours looking the way the capital and pride of Matabeleland ought to look.

We hope that all our citizens, young and old, will give this campaign their strong support.
